

## What we talk about when we talk about drawing

7–9pm, Tue 15th Sep, Stroud Valleys Artspace

An open discussion on what it is about drawing by hand that continues to make it relevant in art, science, education and in the digital domain.

The evening will start with three short presentations from different perspectives: **Bob Fowles** (body-based, two-handed ‘extreme’ life drawing), **Dan Hughes McGrail** (drawing in the digital domain) and **Simon Ryder** (returning to drawing). The evening will then be open (along with the bar) to wherever the discussion takes us.

[Image © Simon Ryder: this event is to accompany the exhibition of drawing ‘Practice in Calcium Carbonate’ showing in the Line Gallery ([www.linegallery.co.uk](http://www.linegallery.co.uk)) at the front of SVA. The gallery will be open during the evening.]
